Agenda and memorandum

1. Due to last minute cancellations Harri and Kirsi shortly had a chat around our community and CGI-MP merger news. We will continue the group-work after the summer holiday season and the 2018-08-16 additional meeting on the final merger decision. Within the CGI-MP structure we will be able to attract existing CGI-MP member organisations to nominate their TF/RSCF experts into our group. We also noticed the official production launch of the We.Trade platform by the nine member banks. That platform will enable with really simplistic and easy to manage tools the SMEs into the financing of their trade with peers and larger corporations exactly according to Standardised Trust community goals and agenda.
