

Gtee semantic model mapping session by WGs #1 and #2, 2020-08-26, 13-14 CET

Attending:

Petri Karhapää
Harri Rantanen
Sirpa Kosonen
Saila Alapiha
Hugo Verschoren
Seija Haavisto-Virtanen
Kirsi Larkiala
Olli Jääsaari

Items discussed:

- previous memo
 - o no comments
- actual work
 - o Guarantee semantic model testing with counter-guarantee case (application and issuance)
 - o good discussion and revision of Harri's work
 - o new versions of the base template and counter guarantee will be available after a while and setting in some new info discussed in the meeting
 - o Harri will add also some new life-cycle events into the counter-guarantee sample case
- next steps and meeting
 - o Next meeting will be the 1st of October at 13:00 CET
 - o Members are expected to start filling in some basic gtee use cases by themselves where Harri promised to help setting the base template ready for the various cases
 - o We will also discuss whether we will start a basic model build-up for additional TF instruments like L/C
