

Gtee and DC semantic model mapping session by the Standardised Trust WG, 2021-04-06, 13:30-15:30 CET

Thanks for the ones attending today.

We had following action points to cover:

1. Gtee base template is available at the working folder:
https://1drv.ms/u/s!Aral44MGEo7Bgl0tm8TYB7d_LxXx?e=xq0UPY as file at
https://1drv.ms/x/s!Aral44MGEo7Bgl_pYZ_AG-3F-Ksb?e=bEIZPS
2. Harri will set a meeting with Hugo to discuss the red text parts at the template (G2.1)
3. The [task list](#) was updated
4. Harri showed very simple [JSON data payload illustration](#) of the rental gtee case (G4)
- the json schema study will be continued
5. Olli needs to invite counter-gtee case team to discuss the case (G5)
6. Saila to deliver key findings from the rental gtee review (G6)
7. Laura will update the Performance gtee case to new template (G7)
8. Gunnar is waiting for Swedish Customs to come back with some info on their gtee case (G8)
9. Hugo will give short presentation on the ISDGP summary on the next meeting (G11)
10. cases G9, G10, G2 and G3 were classified as “done”, also covering DC3 and DC4
11. Harri will continue work with the DC template
12. we welcomed Ms. Pirjo Blå from SEB to join the team!
13. See you on the 4th of May!
