

Standardised Trust WG, general meeting, 2022-01-18 14:00-15:30 CET

Thanks for the ones attending!

As agreed in the last year 2021 meeting we focused on this meeting into the future planning and agreeing on the next steps and feasibility of our work overall.

As a background we composed a survey of which the results were summarised [here](#).

The Agenda

1. what is Standardised Trust vision and mission?
 - a. The previous community vision and mission statements are from August 2018 (available [here](#))
 - b. Vision and mission on practical level for the year 2022 was entered into the OneDrive document shared above
2. how, with which actions this year we will get closer to the set goals?
 - a. Possible physical meetup in summer or soon after the summer
 - i. Depending on the overall capacity to travel
 - b. Continuation of the working group meetings as they were run 2021 with combined session of gtees and DCs
 - c. Task list
 - i. Shorter and move non-progressing items to parking list (not forgetting them)
 - d. Market trends and collaboration with the market practice groups
 - i. Separate meeting quarterly for the starter
 - ii. We had also a lively discussion on the new SWIFT API Working Group starting its work in parallel – Harri will share some contact and invitation info after this meeting to our community members
3. Harri will update the members with the meeting requests:
 - a. Practical WG meeting every third weeks (until to end of June)
 - b. Market Trend and collaboration meetings quarterly
 - c. A heads-up meeting invitation for the physical meeting without further details yet
