

## Standardised Trust WG meeting, 2022-05-10, at 14:00-16:00 CET

Thanks for the ones attending!

### The Agenda

1. Possible physical meeting in June
  - a. Poll arranged, and 8/10 are supporting the physical meeting arrangement
  - b. 6/8 are suggesting it to be in September 2022, after summer holidays
  - c. Finland gets the most votes for the physical meeting venue
  - d. Physical meeting will be arranged in Finland after the summer holidays and more detailed
    - i. ITFA meeting linked setup would be most preferable, if that will be arranged
    - ii. ITFA meeting will be either on the 28<sup>th</sup> or 29<sup>th</sup> of September → then ST meeting could be one day before
2. Event by Enigio and Surecomp on their combined solution under the wings of Standardised Trust on the 20<sup>th</sup> of May at 10-11 CET
  - a. More info to come with registration very soon
3. Guarantees
  - a. G8 – Governmental gtee case
    - i. Next Thursday will be a meeting by HMRC and Laura will report its results to Olli and Kirsi, if that info could be used to find some momentum to have similar discussion ongoing with the Finnish Customs
  - b. G14.1 – German SWIFT team sample case transformation to our use cases
    - i. No news from Anna
    - ii. The original documentation is available at the team's OneDrive and can be reviewed as well if there are good and simple use cases for the agenda point G15 by others as well, not only by Anna
  - c. G15 – use case testing
    - i. No news from the participants today on this item
    - ii. We need to soon start testing the use cases so that we could get the needed input and possible changes to the gtee semantic model
  - d. G16 – reductions use case
    - i. Was moved to the next meeting
4. Documentary Credits
  - a. DC2.1 – base template work
    - i. Code list work implemented around half-way by Harri
  - b. As there were very few participants only available, we decided to continue this track on the next week
    - i. We had though one discussion raised by Nadia on possibility to describe as well the SBLCs in this team and we concluded it might be best to cover that in the guarantee semantic model of ours, where it has been already listed as one possible instance
      1. Nadia will offer some real-life samples of that as well for us to test as a use case in the model testing
5. Next meeting will be on the 31<sup>st</sup> of May, 2022
